

ProjectName	Description
AGAV/FEAT	Special project to review the characteristics data by (DLIS) cataloging.
AMC Comp	<p>AMC &amp; AMSC are compared between FLIS and SAMMS. With SAMMS as the authoritative source, DLIS-S has authority (from the BSM RICE team) to overlay the AMC/AMSC in FLIS with the information in SAMMS. Transaction rejects are loaded into QDB and sent to the PICA for review and determination of correct AMC/AMSC. If date is present at the end of this project name it identifies the date of BSM migration. If the word 'POST' is present in the project name, this NSN has already migrated to BSM and still requires work.</p>
AMSC/CC Rev	<p>PICA review requested for possible disagreement between AMSC and RNCC. If date is present at the end of this project name it identifies the date of BSM migration. If the word 'POST' is present in the project name, this NSN has already migrated to BSM and still requires work.</p>
Army MCC	ARMY Special Project to be worked by (DLIS) Cataloging.
BLANK IMC/IMCA CLEANUP R2	<p>This project contains NIINS that have blank or missing IMC/IMCA codes. If date is present at the end of this project name it identifies the date of BSM migration. If the word 'POST' is present in the project name, this NSN has already migrated to BSM and still requires work.</p>

BR DATA-AUDIT-REV-CAT R2	This project contains NIINS identified through Data Blueprint (DLA Data Audit) that need data cleansing review. If date is present at the end of this project name it identifies the date of BSM migration. If the word 'POST' is present in the project name, this NSN has already migrated to BSM and still requires work.
BR DATA-AUDIT-REV-PICA R2	This project contains NIINS identified through Data Blueprint (DLA Data Audit) that need data cleansing review. If date is present at the end of this project name it identifies the date of BSM migration. If the word 'POST' is present in the project name, this NSN has already migrated to BSM and still requires work.
BR DC-PICA "Phrase-Code Q"	Data cleansing requested by the PICA. All the Phrase Code "Q" NSNs have been cancelled which invalidates these NSNs.
BR DC-PICA "Ref Number Update"	Data cleansing requested by the PICA. Updating of the Reference Numbers for the NIIN.
BR10	Ensure that Packaging Codes and requirements are updated in CTDF IAW MIL-STD-2073-1D.

BR11ai GIRDER...	DLA Data Cleansing project. Government Industry Reference Data Edit and Review process. Information received from manufacturers DLIS review IAW DLA Data Cleansing Instructions. If date is present at the end of this project name it identifies the date of BSM Migration.
BR11aii GIRDER...	DLA Data Cleansing project. Government Industry Reference Data Edit and Review process. Information received from manufacturers DLIS review IAW DLA Data Cleansing Instructions. If date is present at the end of this project name it identifies the date of BSM Migration.
BR11B GIRDER...	DLA Data Cleansing project. Government Industry Reference Data Edit and Review process. Information received from manufacturers PICA has 60 days to review. No response generates a concurrence so DLIS can review IAW DLA Data Cleansing Instructions. If date is present at the end of this project name it identifies the date of BSM Migration.
BR11C GIRDER...	DLA Data Cleansing project. Government Industry Reference Data Edit and Review process. Information received from manufacturers DLIS reviews IAW DLA Cleansing Instructions. If date is present at the end of this project name it identifies the date of BSM Migration.
BR11D GIRDER...	DLA Data Cleansing project. Government Industry Reference Data Edit and Review process. Information received from manufacturers DLIS reviews IAW DLA Cleansing Instructions. If date is present at the end of this project name it identifies the date of BSM Migration.

<b>BR11Di GIRDER...</b>	<b>DLA Data Cleansing project. Government Industry Reference Data Edit and Review process. Information received from manufacturers DLIS reviews IAW DLA Cleansing Instructions. If date is present at the end of this project name it identifies the date of BSM Migration.</b>
<b>BR11Dii GIRDER...</b>	<b>DLA Data Cleansing project. Government Industry Reference Data Edit and Review process. Information received from manufacturers PICA reviews IAW DLA Cleansing Instructions. If date is present at the end of this project name it identifies the date of BSM Migration.</b>
<b>BR12</b>	<b>The CTDF should be reviewed for any blocking codes recorded in Option A. Remove any inappropriate blocks.</b>
<b>BR1ai...</b>	<b>DLA Data Cleansing project. Cancellation candidates. DLIS reviews IAW DLA Cleansing Instructions. If date is present at the end of this project name it identifies the date of BSM Migration.</b>
<b>BR1aii...</b>	<b>DLA Data Cleansing project. Cancellation candidates. DLIS reviews IAW DLA Cleansing Instructions. If date is present at the end of this project name it identifies the date of BSM Migration. If the word 'POST' is present in the project name, this NSN has already migrated to BSM and still requires work.</b>

BR1aiii...	DLA Data Cleansing project. Cancellation candidates. DLIS reviews IAW DLA Cleansing Instructions. If date is present at the end of this project name it identifies the date of BSM Migration. If the word 'POST' is present in the project name, this NSN has already migrated to BSM and still requires work.
BR1aiv...	DLA Data Cleansing project. Cancellation candidates. DLIS reviews IAW DLA Cleansing Instructions. If date is present at the end of this project name it identifies the date of BSM Migration. If the word 'POST' is present in the project name, this NSN has already migrated to BSM and still requires work.
BR1B...	DLA Data Cleansing project. Cancellation candidates. DLIS reviews IAW DLA Cleansing Instructions. If date is present at the end of this project name it identifies the date of BSM Migration. If the word 'POST' is present in the project name, this NSN has already migrated to BSM and still requires work.
BR2a PICA-PID-C-R2	DLA Data Cleansing project. FLIS/SAMMS compare project. PICA review. If date is present at the end of this project name it identifies the date of BSM Migration. If the word 'POST' is present in the project name, this NSN has already migrated to BSM and still requires work.
BR2aa CAT-PID-C-R2	DLA Data Cleansing project. FLIS/SAMMS compare project. PICA review. If date is present at the end of this project name it identifies the date of BSM Migration. If the word 'POST' is present in the project name, this NSN has already migrated to BSM and still requires work.

BR2b CAT-PID-NC-R1-2	DLA Data Cleansing project. FLIS/SAMMS compare project. DLIS review. If the word 'POST' is present in the project name, this NSN has already migrated to BSM and still requires work.
BR2b CAT-PID-NC-R2	DLA Data Cleansing project. FLIS/SAMMS compare project. DLIS review. If date is present at the end of this project name it identifies the date of BSM Migration. If the word 'POST' is present in the project name, this NSN has already migrated to BSM and still requires work.
BR4 AMSC/CC Rev R2	DLA Data Cleansing project. DLIS review IAW Data Cleansing Business Rules. If date is present at the end of this project name it identifies the date of BSM Migration. If the word 'POST' is present in the project name, this NSN has already migrated to BSM and still requires work.
BR4 AMSC/CC Rev R1-2	DLA Data Cleansing project. DLIS review IAW Data Cleansing Business Rules. If the word 'POST' is present in the project name, this NSN has already migrated to BSM and still requires work.
BR9...	DLA Data Cleansing project. Shelf life project. DLIS review. If date is present at the end of this project name it identifies the date of BSM Migration. If the word 'POST' is present in the project name, this NSN has already migrated to BSM and still requires work.

<b>C/T R1.2 AMC/AMSC COMP</b>	<b>DLA Data Cleansing project. Item identified as having out of sync FLIS/SAMMS AMC/AMSC conditions. PICA review required.</b>
<b>C130JSP</b>	<b>Air Force Special Project to be worked by AF (DLIS) Cataloging.</b>
<b>Challenge Program</b>	<b>Challenges received through the Challenge program are loaded and forward to (DLIS) Cataloging or the GIRDER office for review.</b>
<b>DEMIL Backlog</b>	<b>Marine DEMIL items for MC review.</b>
<b>DEMIL Reject</b>	<b>DEMIL records that received rejects while attempting to update the DEMIL code in FLIS. Sent to (DLIS) Cataloging for review.</b>

<b>DEMILMC</b>	<b>Marine DEMIL items for MC review.</b>
<b>DEMILResProject</b>	<b>DEMIL Research Project-Identified by the Demilitarization Coding Management Office (DCMO) indicating possible DEMIL review needed.</b>
<b>DSCP CTDF 2</b>	<b>G&amp;I PID- DSCP reviews and submits any recommended actions to DLIS.</b>
<b>DSCP PID Recon</b>	<b>G&amp;I PID- 1. (DLIS) Cataloging compares FLIS and SAMMS and identifying any discrepancies. 2. DSCP reviews and submits any recommended actions to DLIS.</b>
<b>DSCP SHELF LIFE REVERSAL</b>	<b>DSCP is reversing the Shelf Life codes based on the Navy saying they disagree with the original change.</b>

<b>DSCR PID REV R2-BR2AA</b>	<b>A separate listing of PID reviews that was received directly from the ICP.</b>
<b>DSCR Rev C</b>	<b>DSCR reviews and submits any recommended actions to DLIS. If date is present at the end of this project name it identifies the date of BSM migration. If the word 'POST' is present in the project name, this NSN has already migrated to BSM and still requires work.</b>
<b>DSCR REV C-K0378</b>	<b>DSCR reviews and submits any recommended action to DLIS (specifically for CAGE K0378). If date is present at the end of this project name it identifies the date of BSM migration. If the word 'POST' is present in the project name, this NSN has already migrated to BSM and still requires work.</b>
<b>DUPLICATE TYPE 1 CHARACTERISTICS R2</b>	<b>Mass updates were done to these NSNs and the same MRCs were inadvertently loaded to the TIR more than once.</b>
<b>ELRN Discrepancy</b>	<b>Extra long Reference number discrepancies between the C Segment and the V Segment. If date is present at the end of this project name it identifies the date of BSM Migration.</b>

<b>ELRN Missing</b>	<b>Data cleansing project for NIINs that have a part number with a "-" in position 32 and do not have the MRC of ELRN in the TIR.</b>
<b>F119SP</b>	<b>F119 items and have been assigned to AF (DLIS) Cataloging to review for various reasons, i.e. FSC, name, etc...</b>
<b>FORMER BR2</b>	<b>This project name was used when a BR2 NIIN was cancelled. An action was loaded and immediately closed.</b>
<b>GIRDER</b>	<b>Government Industry Reference Data Edit and Review process. Information received from manufacturers. Review required by Services.</b>
<b>GIRDER-AI</b>	<b>Government Industry Reference Data Edit and Review process. Information received from manufacturers DLIS review IAW DLA Data Cleansing Instructions. This project name identifies NIINS that have already migrated to BSM.</b>

<b>GIRDER-AII</b>	<b>Government Industry Reference Data Edit and Review process. Information received from manufacturers DLIS review IAW DLA Data Cleansing Instructions. This project name identifies NIINS that have already migrated to BSM.</b>
<b>GIRDER-B</b>	<b>Government Industry Reference Data Edit and Review process. Information received from manufacturers DLIS review IAW DLA Data Cleansing Instructions. This project name identifies NIINS that have already migrated to BSM.</b>
<b>GIRDER-C</b>	<b>Government Industry Reference Data Edit and Review process. Information received from manufacturers DLIS review IAW DLA Data Cleansing Instructions. This project name identifies NIINS that have already migrated to BSM.</b>
<b>GIRDER-D</b>	<b>Government Industry Reference Data Edit and Review process. Information received from manufacturers DLIS review IAW DLA Data Cleansing Instructions. This project name identifies NIINS that have already migrated to BSM.</b>
<b>GIRDER-DI</b>	<b>Government Industry Reference Data Edit and Review process. Information received from manufacturers DLIS review IAW DLA Data Cleansing Instructions. This project name identifies NIINS that have already migrated to BSM.</b>

<b>GIRDER-DII</b>	<b>Government Industry Reference Data Edit and Review process. Information received from manufacturers DLIS review IAW DLA Data Cleansing Instructions. This project name identifies NIINS that have already migrated to BSM.</b>
<b>INC 17068</b>	<b>INC is cancelled and replaced by about 5 INCs in different FSCs, so these need to be reviewed by (DLIS-K) Cataloging to determine the correct FSC from the information currently on the NSNs.</b>
<b>INVALID RNCC-RNVC-DAC</b>	<b>RNCC/RNVC and DAC do not meet the criteria in Vol. 8. Cataloging review required. If date is present at the end of this project name it identifies the date of BSM migration. If the word 'POST' is present in the project name, this NSN has already migrated to BSM and still requires work.</b>
<b>Invalid SOS</b>	<b>Items where the PICA SOS changed and the Navy line does not show the change. This is a Navy SICA project.</b>
<b>L2/L3 Reversal</b>	<b>This project was initiated to reverse mass updated L2/L3 actions.</b>

<b>LMP-DC-AMCOM</b>	IMPC and 2201 data identify the status of an NSN. They must be compatible. Conditions exist within AMCOMAIR and AMCOMMIS NSNMDR where the IMPC shows the NSN as current and active, but the 2201 has a KDD or KDU showing that we have been removed as a user. The opposite also exists where the 2201 shows an active MOE Rule, but the IMPC is terminal, suggesting that we should not be recorded as a user. The job of KALA is to verify the user status on each
<b>Medical PID</b>	(DLIS) Cataloging comparing/correcting discrepancies between FLIS and SAMMS.
<b>MIL-I-3575</b>	Special project to update MIL SPEC reference numbers initiated by PICA (CY).
<b>MIL-R-11589</b>	Special project to update MIL SPEC reference numbers initiated by PICA (CY).
<b>MU FSC5341</b>	FSC 5341 is going away, Cataloging review required. If date is present at the end of this project name it identifies the date of BSM migration. If the word 'POST' is present in the project name, this NSN has already migrated to BSM and still requires work.

<b>MU SIC R2</b>	Mass updates were input by DLIS-SIC and these rejects were sent to cataloging.
<b>NAIN7</b>	Special project identifying items with unapproved items names to be worked by (DLIS) cataloging.
<b>NAVY INVALID RNAAC R2</b>	As a Navy agency was closed, their RNAAC becomes invalid. These are NIINs where the Navy is no longer the manager and the RNAAC needs to be changed by the manager.
<b>NAVY NAIN WITH Z</b>	NSNs originally cataloged by the Navy where they used "Z"s in place of commas or to fill out the 19 spaces in the segment A of FLIS.
<b>Navy PSI...</b>	(DLIS) Cataloging review of RNCC/RNVC C/1 combinations. If date is present at the end of this project name it identifies the date of BSM migration. If the word 'POST' is present in the project name, this NSN has already migrated to BSM and still requires work.

<b>NIMSC Zero</b>	<b>ARMY Special project to be worked by (DLIS) cataloging.</b>
<b>NSN W/O REFERENCE NUMBER-NON-TYPE 1 R2</b>	<b>Items in the FLIS without reference numbers that are not Type II of "1".</b>
<b>OBE</b>	<b>Overtaken by events-These actions are awaiting removal from QDB.</b>
<b>Phrase Code/Moe Discrepancies</b>	<b>Conflict between Phrase Code and Moe Rule exists.</b>
<b>PID DSCR</b>	<b>Richmond PID-(DLIS) Cataloging comparing/correcting discrepancies between FLIS and SAMMS.</b>

<b>PMIC-U</b>	A customer support request identified a problem with the Precious Medal Indicator Code (PMIC) "U" assigned to many items in FLIS in error. (DLIS) Cataloging is responsible for review and correction of FLIS.
<b>PRPY/DAC REVIEW R2</b>	Items with word "Prioprietary" in clear text but do not have a DAC of B, D, F, or H.
<b>Reference Numbers Beginning with Space</b>	Data cleansing project of part numbers in the FLIS that have a "space" in the first position.
<b>SAE RN REJECTS-SIQ 081</b>	SAE sent project to cataloging to have some MIL Spec part numbers changed to SAE part numbers. The new part numbers were inadvertently added with the first 3 characters of "SAE" which was incorrect. A mass update was processed to remove the "SAE" from the part numbers. The rejects are in the QDB.
<b>Stillman Steel CAGE Change</b>	Stillman Steel Company now manufacturer's some of their items in Hawaii at CAGE SW461. The new CAGE needs to be added with the part number but the old CAGE is still good for ordering purposes.

<b>Subsistence BSM Cleanup R1-2</b>	<b>DLA (BSM) Data Cleansing project for Subsistence items identified in Release 1.2 for PICA review.</b>
